~~SECRET~~  
TRANSCRIPT SUMMARY

REMOTE VIEWING (RV) SESSION DC-48

1. (S/NOFORN) The remote viewer was asked to go back in time to 2200 hours on 10 December 1980. He was then asked to go to the stadium and describe anything that would be of interest to USI. The viewer described 6-7 armed personnel, who appeared to be waiting for something to happen. At approximately 0100 hours, the viewer described two helicopters landing at one end of the stadium field. Three personnel exited the first helicopter and four personnel exited the second one. These personnel were loaded into a large van and taken to a nearby location. The viewer described this location as a building with a dark colored roof situated very near the stadium. Inside this building were approximately 20 personnel, food, coffee and boxes/crates and suitcases. When asked why these people were here, the viewer felt that this was a secret meeting of possibly a rebel force. When asked to describe the contents of the boxes/crates he described cloth material, books, papers, and something made of sheet metal that looked like an ice cream cone.

2. (S/NOFORN) The remote viewer was then asked to describe the building with the white roof. He said that there was nothing in this building of interest, it was like a big, empty warehouse.

3. (S/NOFORN) The remote viewer was then asked to access the stadium and the occupied building on 18 December 1980, 2200 hours local target time, and describe anything of interest to USI. The viewer described the stadium and the building with the dark roof as being barricaded-off from the surrounding area. He felt that there were two light, armored vehicles located on a circular driveway, in front of the stadium. He also described machine guns located on top of the stadium roof and the roof of the building with the dark colored roof. He perceived three machine guns on the stadium roof, one of them being 50 caliber and one machine gun on the roof of the nearby building.

REMOTE VIEWING (RV) SESSION DC-48

1. (S/NOFORN) Before the start of this session the remote viewer was shown an overhead image of the target area. The interviewer pointed out three specific locations to be looked at by the remote viewer.
2. (S/NOFORN) At the start of this session the viewer was asked to go back in time to 10 December 1980, at 2200 hours, local target time. The viewer was then asked to describe anything that would be of interest to USI at any of these locations. The remote viewer was then asked to return to present and describe anything that would be of interest to USI at 2200 hours, 18 December 1980.
3. (S/NOFORN) The overhead imagery is not included in this report due to its classification.
