DCC-34: The Embassy in Abu Dhabi is an old dilapidated residential type building. U.S. personnel are not allowed to enter any of the residential areas.

Correlation: +06 - ^{SG1A} [REDACTED] experienced strong feelings about the lack of U.S. control over the building.

DCC-39: The Embassy is in Manama.

SG1A Correlation: Diagram #1 is very similar to an area where [REDACTED] worked.

+14 - ^{SG1A} [REDACTED] was experiencing a severe headache.

DCC-47: The location is the U.S. Embassy Kuwait.

Correlation: +07: There is an "L" shaped desk in Yemen.

+16: ^{SG1A} [REDACTED] hit his head on the "L" shaped desk and suffered a severe headache.

Overall, it appears most of the impressions were from Yemen while the site picture was Kuwait.

3. Since the objective of this portion of the project is to establish remote contact between [REDACTED] and viewer 01, we believe any correlation is "plus"; therefore, we feel progress has been made. As discussed with the CO, #66, #01, and [REDACTED] future sessions with [REDACTED] will have a definite objective--i.e., contact [REDACTED] during specific time periods.
