Correlation: Everything considered, none.

2. During sessions DCC-14, 26, 34, 39, and 47, SG1A [REDACTED] was TDY overseas. The viewer did not know [REDACTED] location during SG1A any specific time period. The purpose was rather indefinite in that the viewer was to determine impressions regarding [REDACTED] SG1A from a site picture.

DCC-26: SG1A [REDACTED] was traveling from a very backward country (Yemen) to a modern Arabic city (Muscat).

Correlation: The general impressions appear to cover Muscat and Kuwait at the same time. Diagram #3 was similar to the Embassy Compound in Kuwait--another recent traveler to the area stated, "The diagram appears to have been drawn by someone who visited the compound once some months ago."

DCC-34: The Embassy in Abu Dhabi is an old dilapidated residential type building. U.S. personnel are not allowed to enter any of the residential areas.

Correlation: +06 - SG1A [redacted] experienced strong feelings about the lack of U.S. control over the building.

DCC-39: The Embassy is in Manama.

SG1A [redacted] Correlation: Diagram #1 is very similar to an area where [redacted] worked.

+14 - SG1A [redacted] was experiencing a severe headache.

DCC-47: The location is the U.S. Embassy Kuwait.

Correlation: +07: There is an "L" shaped desk in Yemen.

+16: SG1A [redacted] hit his head on the "L" shaped desk and suffered a severe headache.

Overall, it appears most of the impressions were from Yemen while the site picture was Kuwait.

3. Since the objective of this portion of the project is to establish remote contact between [redacted] and viewer 01, we believe any correlation is "plus"; therefore, we feel progress has been made. As discussed with the CO, #66, #01, and [redacted], future sessions with [redacted] will have a definite objective--i.e., contact [redacted] during specific time periods.
