REMOTE VIEWING (RV) SESSION CCC-85

TIME

#14: This will be a remote viewing session for 24 April 1980. Mission time is 2300 hours.

PAUSE

All right #01 the time is now 2300 hours. Your mission for this evening is to go to area H. [REDACTED]

[REDACTED] When you get to area H I want you to identify any hostages that are in that building and I want you to describe the security in and around this building to include the guards. Relax, relax, focus your attention on the [REDACTED] Report back to me.

PAUSE

+03 #01: I see a room centered on the left, left end of the building where the, what appears to be an entry is located. Is very close to it. It's got a drop ceiling in it. Very low ceiling. There's a recessed neon lights in it. Appears to be a rust colored carpet or wall carpet. There's three large tables in the room, and what appears to be curtains is down two sides.

PAUSE

+05 I got a projection ...projection equipment to one side against the end of the wall. It's...I got an impression there's about 5 hostages there. One's a.....one's a warrant officer. Three are civilians. One's a one's an E-7, Army type. They're occupying the rear right side of the room. Uh....first name is George. One of them's first name is George. I think he's a civilian. I think...uh...one of them I know. Let me concentrate on him for a minute. I know him. I can't.....

PAUSE

+10 He's...uh...one of the civilian's is a very heavy set fellow with..uh..tapered sideburns. Very solidly built. About 5 foot 8, brown hair. E-7 is 6'1", 190 pounds...late 30s... Getting the impression that..uh..one of these hostages is Kennedy. I feel like he's new. Like newly added to the group.

There's a LTColonel here also. I think he's the first one I got the impression of. A military man. This guy's definitely not Holland. It's a different one. It's a different Lieutenant Colonel, and I got a.....

#01: There's an Air Force type here. I think he's, he's an Air Force employed civilian. I think he's a civilian who works for the Air force. Maybe..uh..retired Air Force type. Very short haired Air Force type. Very short hair. He's very meticulous about his grooming. I don't see any windows in this room, so it must be an interior room.....

I don't see any Iranian guards in the room, either. There's ..uh..the doors..uh..single entrance sets of door...maybe metal. It's like an ante-room....like a cloak room or something, right outside with another door that's heavy metal. There's..uh.. some kind of a light or a sign or something over the door. Very quiet room. It's a...designed...acoustically designed. Quiet room. There's an armed Iranian in ante-room ....cloak room. He's sitting on a chair. There's a metal desk stacked outside the door of the cloak room. Like an indepth barracade. that you..uh..you zigzagged...you got to walk in a zigzagged pattern between these stacked desks. Not a very short hallway. And you make a left and a right turn to get out of the building.

PAUSE

There's been alot of things stripped out of this building. Uh...selected pieces have been stripped from this building. Uh...tapes. I see alot of tapes...uh...one inch mag-type tapes. I had a sensation they're strewn about...thrown around. I think..uh..the entranceway to this building is been..uh..booby-trapped.

+15

Front door is kept locked and bolted on inside. It's also.. uh..steel type door. Leadered (phonetic) type steel. There's uh...great deal of munitions in the ammo cans stacked inside. It looks like couple automatic weapons laying on a counter top or something. Just inside the door on the left side. And, there's..uh..there's a couple of automatics laying there. I get a sensation for large open space with very large white boxes in here. I think this building is rigged to....it's booby-trapped in some way....it's rigged to burn. I think they're going to burn this building if it's messed with.

PAUSE

I see maybe two additional Iranians in the building in there. They're just poking around in some stuff..... One of the other civilians is..uh..very small person....very tiny person....5'2"/5'3".....going bald and he's got wire-rimmed glasses. They've ..uh...they've moved alot of things out of this building....in a van. I see shotguns on the counter too, two shotguns.....(mumbling) and a riot gun.....(phonetic)

+20 #01: It's very, very quiet in the room where the hostages are. Uh.....like a soundproof room.....very quiet. I think.... uh....there's some kind of.....I get an impression that the ...get an impression that the hostages could, could actually lock themselves in this room if they wanted.....throw latch... or jam ...the handle down (phonetic) they would be..uh.. unable to come in. That's all I'm getting.

PAUSE

#14: Ok. I have no further questions, at this time. Is there anything else that you think is important to add?

#01: I think the building is rigged to burn. And, that's important.

#14: Let me ask a question. If the hostages lock themselves in and the building was set off, what position would they be in? Would they be in danger of going up with the building or would they have.....

#01: Yes, yes, very much so. These...uh...these ...uh...power devices are..uh..I sense extreme intense heat. I don't think anything will survive.

#14: All right. I have no further questions. Ok. We're now ready for debrief.

#01: Page 1. I got a feeling like the left end of the building is where I was....somewhere over in this area is a door....entry.... area and..uh..this room is like....situated this way...with a small cloak-type room entry way....somewhere in the left here is a counter area. I'll call it target room. There are large white boxes here. Uh.....

Page 2 . Is a blow-up of this room. ....entry door....got a feeling of curtains.....uh...projection equipment.....there are large tables down this end....and the hostages are down at this corner.....there is a guard down here.....these are guards.....these are hostages.....uh.....this is..uh..like a cloak.....entrance.....to area...like a hallway...call this a modified hallway.....'cause it's not really a hallway..... it just gives that impression.

Page 3. Going into that corner of the where the hostages are.... Let's see....hostage 1, I got the impression that this hostage was a Lieutenant Colonel, but not Holland. I don't even know if Holland is a Lieutenant Colonel...if he is...but...this civilian is ... small .....about 5 foot 2 inches or 3 inches in height. This guy is an E-7; this guy is an Air Force civilian. This guy's name was Kennedy. Got a....one of them is first.... name George.

- #14: Ok. You mentioned that you felt that Kennedy was new there. What gave you that impression?
- #01: I don't know. I just felt like he joined the group. I also got an impression that one of them was a warrant officer, but that doesn't jobe with whatelse I said, but.....
- #14: Ok. That's always possible.
- #01: The warrant officer may be a 6th hostage.
- #14: You described the entrance of this building as being booby-trapped.
- #01: Four....entrance door.....
- #14: Can you elaborate on that?
- #01: I, I just got an impression like there was....uh.....  
some form of.....devices next to the door....booby trap  
devices....there was like a counter on the left with weapons  
on it, and to the right of the entrance were two more guards;  
maybe just poking around in some stuff in this area....uh....  
going....following this arrow.....calling this route to room  
.....there was a.....this hallway impression like this....  
like this, where you would have to go....uh....a zigzagg type  
pattern....down modified hallway.....
- I felt like the entire building was rigged to be burned.  
Guess that's it.
- #14: Ok. Looking at my notes I don't see anything else.
- #01: Ok. Guess that's it.
- #14: End of session.
