#### MISSION STATEMENT

(S/ORCON) To establish a program using psychoenergics for intelligence applications. Specifically, utilizing that field of psychoenergics referred to as REMOTE VIEWING. The program encompasses the following:

- Establishing a training program in REMOTE VIEWING utilizing selected INSCOM personnel.
- Establishing procedures for intelligence collection techniques utilizing REMOTE VIEWING.
- Establishing a mechanism for responding to intelligence collection requirements (tasking) using REMOTE VIEWING.

<sup>\*</sup>Target Correlation Chart (TCC) was established not to prove or disprove Remote Viewing (RV), rather, it was designed to measure RV learning trends and to provide Project Management personnel a readily available management tool.

<sup>\*\*</sup>Current state-of-the-art indicates this level of expertise is the norm for an experienced Remote Viewer.
