1. (S/CL-2/NOFORN) On 11 October 1984, BG Scanlon tasked the Project Manager, INSCOM CENTER LANE Project (ICLP) to identify INSCOM elements that could receive CENTER LANE support subsequent to the transfer of ICLP to DIA. This memorandum identifies those INSCOM elements.

2. (S/CL-3/NOFORN) The intent of the transfer of ICLP to DIA is to provide a psychoenergetic intelligence collection activity that can respond to DOD intelligence requirements; therefore INSCOM elements will have the opportunity to task the ICLP follow-on much as they did in the past. For the near term, intelligence collection support using ICLP techniques will continue to be available only on a restricted basis because of limited resources and the requirement for direct contact between the "customer" and the collection activity. With these considerations in mind, the INSCOM elements listed below are potential customers of the new DIA psychoenergetic collection activity;

- a. (U) U.S. Army Operational Group
- b. (U) U.S. Army Systems Exploitation Detachment (SED)
- c. (U) Special Operations Detachment (SOD)
- d. (S/NOFORN/WNINTEL) U.S. Army Tactical Concepts Agency (TCA). (This assumes TCA is transferred to INSCOM.)

3. (S/CL-2/NOFORN) The commanders of the Operational Group and SED have received a CENTER LANE briefing, and have tasked ICLP in the past. Commanders of TCA and SOD have not received a formal ICLP briefing, although individuals in those activities are aware of ICLP. ICLP responded to TCA taskings in December 1983. If addressees concur in the above list, recommend that the ICLP Manager be authorized to provide ICLP briefings to the commanders of TCA and SOD prior to 15 December 1984.

Yes

4. (S/CL-3/NOFORN) INSCOM has a vested interest in the intelligence application of psychoenergetics, and there are no plans to keep information from INSCOM as to the Project's future progress, results, capabilities, etc. Periodic status reports can be provided by the undersigned to Mr. Del Toro as appropriate.
