LTC Brian Buzby

Dear Brian:

(S/NF/CL-1) With regard to alternative training investigations, we have decided that it is probably best not to send a preproposal to you with regard to making an alternative training procedure available, as we have not yet had the opportunity to evaluate in detail alternative approaches we have in mind. Therefore, we suggest that we investigate alternative training using funds specifically earmarked for exploratory research. This would optimize the opportunity to provide you additional training alternatives in the future with the least risk to you.

(S/NF/CL-1) We shall keep you informed about our progress. Should the program yield positive results, we will seek your advice as to how we might integrate the new procedure into your program.

(S/NF/CL-1) In the meantime I am looking forward to the work we have planned for the immediate future. Please feel free to contact me at any time with regard to these issues.

With regards,

Edwin C. May, Ph.D.  
Radio Physics Laboratory
