SUBJECT: CENTER LANE Staff Study

Commander  
902d Military Intelligence Group  
Fort Meade, Maryland 20755

1. The attached study prepared by CPT(P) Goebeler is forwarded for your consideration.
2. I heartily concur with the study's recommendations.
3. I anticipate that the initial impact in resources required to support a "CENTER LANE" SAP, will consist of one analyst providing near full time OPSEC support until SAP security procedures are in place and registration at DA is accomplished. Following registration, support should taper off to an "as required" basis dependent on the operational needs of the project.

The conferees agreed to the Senate position to curtail all operational activities conducted by the Army in the National Foreign Intelligence Program at the end of fiscal year 1982. Accordingly, \$0.5 million and 12 spaces were reduced from the fiscal year 1983 GDIP. The conferees agreed to retain \$0.3 million for DIA to complete the third year of a 3 year research contract. Future funding -- if any -- of this research and experimentation activity should be budgeted outside the NFIP.
