4. (U) AMSAA and INSCOM personnel presented very brief updates as to the progress they were making with their respective programs.

5. (S) Dr. LaBerge was very anxious to understand how the training was going at SRI. Two of the individuals who have been through the training cycle at SRI summarized how they felt about the training. They were very positive in making their reports. Dr. LaBerge was especially interested in how they felt about the program and any impact it might be having on them.

6. (S) I made the offer to Dr. LaBerge that we would like him to try Remote Viewing and that we would gladly provide the Interviewer and the target for the day. He felt that would be a nice approach and we will attempt to set something up in the near future.
