POO - BREAK

SUMMARY: Site consists of rolling hills/7.
meeting flat land. Series of structures
probably around the juncture of the hills and
land and stretching up and out. structure
appear to be low probably not more
than 2-3 stories. Area is green, balmy.
There is a arched or curved structure here.
and a low long structure without much
of a vertical component.

STRUCTURES APPEAR TO BE MADE
OF NATURAL MATERIAL. People are brown
skinned with dark hair. A GROUP OF
WOMEN IS GATHERED TOGETHER. THEY ARE
LIGHT HEARTED AND LAUGHING. BUT THEY
ALSO HAVE A PROPER FEELING AND ARE
POSSESSED OF A VERY SIMPLE DIGNITY.
(THEY REMIND ME OF THE WOMEN I
HAVE KNOWN)

Area is a farming community,
animals are used, irrigation ditches. There
is lush vegetation, inside vegetation it is hot
and steamy. People have a feeling of community.
There is a common heritage. Religion is
important in lives. Rituals are important. People
are calm, satisfied almost passive. They are
smaller than average american. Colors appear to
be important to them. They have adapted
to their life style very well. Life may
be somewhat primitive but there are no
wonders here.
