SUMMARY: Site is flat and rising
land. At this time it is cool, fresh
and brisk. The area has tangy, fresh smells
which remind me of peppermint. There are
also food smells. There is a swishing and
a clucking noise there. There are also
humming and possibly clanking ^{noises} smells.
There are structures at Site. One
set of structures comprises a series
(interrelated somehow, i.e. physically, functionally
style). There is at least one other and
probably at least two other structures
that are not part of this series, or
are important for some reason (NEI)
There is a tall thin structure and
also a long narrow structure at site.

SUMMARY: INSIDE OF Large Building 28

IS A LARGE, wide, HIGH ceiling, open feeling room. Room EITHER HAS A VAULT OR CHAMBER OR IS A VAULT AND CHAMBER. People IN THIS ROOM ARE brilliant, SERIOUS, CURIOUS, SOMBER, CANDID AND BUSINESS LIKE. There IS A FEELING OF TESTING IN THIS ROOM. PEOPLE IN ROOM ARE REGIMENTED AND IT IS ALMOST LIKE THEY ARE IN UNIFORM.

What goes on in this room is clandestine and SECRET.

In 1977 There were two objects in the center of the room. Objects are developing and are forward looking. People here are amoral, cold and brilliant. I feel repulsed. Objects have to do with congealing and focus. They are also convulsive (NFI) and are mechanical in some strange way. Objects are like a bank and there is some form of crossover. Objects are controlled and interconnected. Objects are tough, protected, functional, functioning and cushioned. They are syncretized and

Approved For Release 2000/08/08 : CIA-RDP96-00789R000100130008-9 29
have something to do with something
like rays (nfi). They are locked in in
combination and are sympathetic. Objects
are a reservoir. Energy is present it is
bouncing and building. There is feedback,
static, light and a surge. There is
a caramel color which has something to
do with bifurcated, linked, dangerous and
far fetched. There is also a strange
burning smell and crackle. Other colors
associated are white, gray and gun metal.
Something (NFI) is channelled. Two objects
seem to feedback off each other (NFI).
AT Times in the past they have
been put side by side and at other
times they are placed at right
angles to each other. Sometime, probably
in 1978, objects were moved from
this large open building to an open
place, with water, salt air and birds

Later objects were moved to an
warehouse. I have the feeling that
in 1978, excitement or energy was
built up. There is a feeling of
energy with substance (NFI) being projected
upward toward something that reminds
me of colored easter eggs floating
in space.

The word diguadinal (or a similar
word) has something to do with two
objects at the site. It also has
something to do with linked, tandem
and symbiotic as well as color, frequency
and cross-over.

The following words, are either not words
or do not ~~seem~~ seem to make sense.
