PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

CRV Session Procedures Report (S/NF/SK)

Control Number	: 8609C
Date of Session	: 29Oct86
Date of Report	: 29Oct86
Session Number	: CRV-03
Source Identifier	: RV-003

1. (S/NF/SK) Tasking: Initial tasking received 23 Oct 86; see attached data sheet. Amplifying instructions for this session were generated as a result of data produced by this source in CRV-02, to wit, attempt a detailed S6 of the "set apart area" and conduct the same time line search (1978-1988) against it.

2. (S/NF/SK) Session: Source was told that the session was the third and last of mission number 8609. Source was shown his symbolic sketch of the "set apart area" (CRV-02) and instructed to begin session with a S6 "blow up" of this area. Source immediately produced an enlarged sketch and began to objectify data in a S6 matrix. Source was directed to pay particular attention to structures in the area, whereupon he generated several different perspectives of the site. Source was then instructed to draw the time line. He then immediately perceived data (see below), but had to traverse the time line, searching for the place (time) that it belonged. When source perceived a person who seemed as though he might have been involved/injured in an event, source was directed to draw two circles, one representing the person, the other the event, and then to touch both simultaneously so as to stimulate further data.

3. (S/NF/SK) Summary: (See sketches). Target area has massive, dense, large, solid, metal structures. Associated colors are silvery and "like O.D. green." The site is "producing"; people are working.
