1. (S/NF/SK) Tasking: Initiative/Monthly follow-up.

2. (S/NF/SK) Session: Monitor created coordinates 5 minutes prior to start of session. Source, as usual, asked monitor if there were any special instructions and was told that he would receive such in S4. Source went on (what appeared to be) a typical "joy ride" upon first cue. However, since source RV-021 described a similar site during her "joy ride" yesterday (working the same target), monitor has an intuitive feeling that the signal line may be trying to tell us something here. Monitor felt that source was quite "on line" otherwise; source felt good about the session. After acquiring what seemed to be the target building, source was informed that the monitor was interested in the "target room" only.

3. (S/NF/SK) Summary: Site involves a large, high, flat, oblong, angular, solid, white and grey building. Within the building are hallways that serve many different areas and rooms. There are tiled floors here. Source described the target room as having heavy-duty or reinforced doors. Thick glass panels for observation are present. There are objects that are "not quite chairs" around the perimeter of the room. A group of about 10 men are engaged in "discussing, observing, directing, and controlling". This is a "meeting of equals" who share a sense of power, experience, self-confidence, authority and who are used to being obeyed. They are around middle-age, though not sedentary types; people of action, "wheelers and dealers". Conceptually like a "steering committee or oligarchical legislature". These people are members of the Soviet leadership (AOL-"politburo"). Among other things, they are faced with a problems of:

~~SECRET~~/NOFORN-SKEET CHANNELS ONLY

- 1) "distribution" over great distances to places over which they exercise control; alternatives.
- 2) Military-related hardware, a specific weapons system. Source impression of a person on a seat looking through something and slewing it back and forth against the sky. It is a line-of-sight, direct fire weapon. Person is on a tracked vehicle (but not a tank) painted dark olive green and black. This item is new and the group is discussing whether or not to distribute it in quantity to someone else.
- 3) A big action has been planned and implementation of the final stages are being discussed. This action involves what seems to be the North to South movement of large amounts of material (ADL-"Afghanistan").
- 4) Topics involving other areas of the world, involving policies and political orientations.

4. (S/NF/SK) Feedback: Source was informed that this target would be worked again in about a month.
