PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Session Procedures Report (S/NF/SK)

PROJECT NUMBER: 8711	SESSION NUMBER: 1
DATE OF SESSION: 22 JULY 87	TARGET COUNTRY:
REFERENCE:	MISSION STATUS:
TECHNIQUE UTILIZED: CRV	SOURCE IDENTIFIER: 018

1. (S/NF/SK) Monitor Tasking: Identify and describe the placement and

[REDACTED]

SG1A

2. (S/NF/SK) Source Tasking:

- Encrypted coordinates (provided)
- Source was directed to explore any future use of the object (AOL-"missile") which he perceived during the session.

3. (S/NF/SK) Summary: A city of flat-topped buildings. Inside one of the buildings is a large room an object which may be a missile. In the future this object will be carried aboard a ship. The ship will explode in place (for reasons unknown) without, or coincidental with, the missile being launched.

4. (S/NF/SK) Comments: Source's comment about PI's notwithstanding, monitor is confident that the target was acquired and fairly accurate data collected.

memorandum

DATE: 22 July, 1987

REPLY TO
ATTN OF: DT-S

SUBJECT: SESSION SUMMARY, PROJECT 8711 (C-SS)

SG1J TO: DT-S (ATTN: [REDACTED])

1. (S-SS) Statistics:

Project #:	8711
Viewer:	018
Session date:	22 JUL 87

2. (S-SS) Impressions gained from the session include:

a. The site in present time appears to be a large complex of flat-topped buildings, crowded together over a large area.

b. Inside the structure of interest to this session, there is a grey-colored room which is used both for preparation and storage of an object (see below). This room has an unusual look to the walls (AOL: like the surface of the space ships in "Star Wars") in that it seems to be textured with "things" and large, nondescript shapes.

c. The object located in this room appears to be cylindrical. It is rounded spherically on one end and seems to taper in size on the other. This object was repeatedly seen as being situated on "legs", above the floor of the room (see transcript, p. 7).

d. A time line showed the future location of the object to be on board a ship at sea.

e. A second object was encountered. This object is also cylindrical in shape, but very "stubby" (front to back). The front end gives the impression of a semi-open cylinder, with a peak, or pointed shape sticking out in the middle of it (see transcript, p.9 and 12).

f. A look at these (and possible other related) objects on a time line into the future showed:

X=====1=====2-----2=====3=3=3=3=3....

where X is the present time,
 1 is a single-use event which seems to involve object #1, above. This single-use event appears to be a large explosion which takes place at the object's location (rather than the object being dropped or shot to another place for the explosion to occur).

- 2-2 is a span of time during which one of the objects is in constant use. The type of use here "feels" much different from the other use-events on the line.
- 3=3=3 is a series of single-use events which occur much like event 1, above. They are sudden events which have a feeling of being in a distant place (this distance feeling is not mentioned in the transcript).
- is an indication that there is no further indication of any "objects" in existence on the time line after the series of one-time uses mentioned above.

3. Viewer's critique: There was quite a bit of P.I. during this session, and it is quite possible that there are very heavy analytic overlays and drives. There were only a few times during the session, and those very brief, when I had the conscious feeling that I was definitely "on target".

S6: FIND TIMES OF USAGE FOR GROUP OF SUBJECTS!

INTERIM SUMMARY:

- (1) IN NORTH FUTURES, THERE IS A SUDON FOOT OF A ONE-TIME USAGE. SOMEHOW ASSOCIATES WITH A BLUISH COLOR, (MAY BE THAT PERCEIVED AS A SHIP AT SEA, ABOVE)
- (2) SOLID FOOT, QUITE DIFFERENT THAN OTHER USAGES. THE ONE SPANS A LENGTH OF TIME, AND PWINDS IN USE UNTIL IT JUST LIVES OUT, VERY SOLID FOOT WHICH IN USE.
- (3) MANY SUDON ONE-TIME USES, IDENTICAL TO (1), ABOVE. AFTER THIS TIME, THERE ARE NO IMPRESSIONS OF ANY OBJECTS ON THE TIME-LINE.
