PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Session Procedures Report (S/NF/SK)

Handwritten: 20 Oct 87

Handwritten: 135-8
14/16

PROJECT NUMBER: 8712-B	SESSION NUMBER: 1
DATE OF SESSION: 23 OCT 87	TARGET COUNTRY:
REFERENCE:	MISSION STATUS:
TECHNIQUE UTILIZED: <u>CRV/"FF"</u> <i>Solo</i>	SOURCE IDENTIFIER: 099

1. (S/NF/SK) Monitor (Interviewer) Tasking: NA
2. (S/NF/SK) Source Tasking: (See cover sheet)
3. (S/NF/SK) Summary: Centered around the time "window" 23 October 1987 to 31 October 87 I perceived a large amount of air activity, mostly of a "patrolling", "response", or "show of force" nature (but see below). The perception arose of a (older type) mine, suspended at a depth in relatively shallow water; it had been here since at least the beginning of the target time window. I had the impression that it had been thrown overboard from a small boat during the hours of darkness. It lies not far from the southwestern coast of the Gulf, very near the border of Kuwait-Saudi Arabia. This mine will hit a small-to-medium size American warship (acting as the lead vessel) as it proceeds along the coast in the direction of Kuwait. The ship will be struck forward and starboard. Casualties and extent of damage were not perceived. Also, response to this action was not perceived. (At one point during the session, there was the vague impression of an explosion in what seemed to be Kuwait, but I could not ascertain its associations nor placement in time--it could have been a recent event. Also, there was the strange impression that some of the air activity had something to do with Israel, but this I must perforce label AOL. Something--an agenda outside the tasking but connected to "air activity" --seems to be taking place during the period of interest.
4. (S/NF/SK) Comments: Although I am a trained source, this was the first operational task that I have undertaken.

~~SECRET~~/NOFORN

1. PROJECT: 8712-B

2. BACKGROUND: Near-time events of significant interest appear to emit a stronger-than-normal signal that lends itself to detection and decoding. As a sequel to Project 8712-A, Project 8712-B also encourages remote viewing in free-flight format, that is, the conduct of a remote viewing session against a specific target without the assistance or guidance of a monitor or interviewer.

3. ESSENTIAL ELEMENTS OF INFORMATION:

---Access and describe the nature and scope of hostile activities directed against US-flagged vessels in the area of the Persian Gulf for the period of 23 October 1987 to 31 October 1987 inclusively.

---Access and describe the nature and scope of US military activity against the hostile threat (targets) in the area of the Persian Gulf during the period of 23 October 1987 to 31 October 1987 inclusively.

4. SPECIAL INSTRUCTIONS:

SG1J

---Prepare a summary of your perceptions. *Submit to* [REDACTED]

---Provide conceptual drawings in support of your perceptions.

---To perceive an absence of activity or events for the period of interest is also acceptable. A No! answer is acceptable.
