SUMMARY OF INFORMATION

During this session, I first could see young men involved in some type of activity. At first it looked as though they were playing outside but then I had the feeling that they were trying to show or demonstrate or learn something. At some points it looked as though they were flying, jumping, leaping, or pole vaulting.

I then could see young men in a line or lining up. It looked as though some men were holding a long pole and some men were holding something round over their heads. I had the feeling that they were showing or demonstrating something to a group of people.

I then could see young men wearing shorts and running bare foot. I could see cars. The young men were running bare foot up to the cars and it looked like some of the men were sitting on the cars.

I then could see a man and he had something square over his head. It looked like some type of equipment.

It seemed that there was man talking to a small group and he was holding his hands in a square and he was lecturing. He was explaining to the group "space" or "measuring space."

I then could see a vast body of water. I was standing on a small bridge or cement walk way and I could see the green water

that had rocks around it. The water could get very cold and rough.

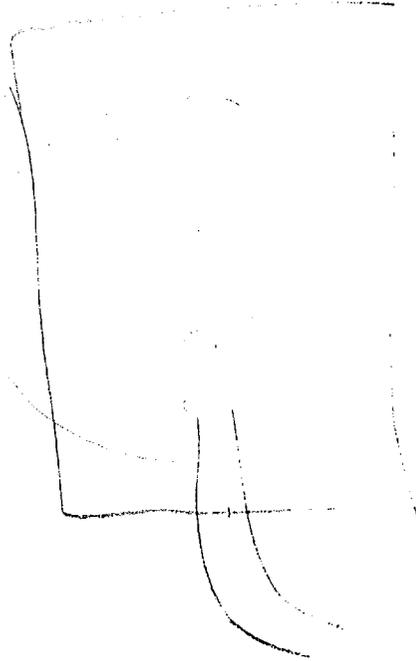

I then could see a beautiful thick white wall that went around in a big circle. I was at the bottom of the wall standing in the green grass. When I looked up, I could see two men. One man had a dark suit on and he wore sunglasses. He had rather long black hair. He reminded me of a security person. It looked as though there was going to be a gathering here and people were waiting for someone important to speak or perform. There was a blue plaque on the wall. In the grass, near the wall, there was a black plaque saying what this place was. It could have been a square or a park.

Overall, the site had a lot of energy and I kept associating the color yellow with the site. I was very happy to be here.
