

(H-6)

ARASTRA BARN

(SOUTH OF PORTOLA VALLEY, NEAR PALO ALTO BORDER: OFF ALPINE
AND ARASTRADERO ROADS)

North on Laurel (towards San Francisco) to Ravenswood---left onto Ravenswood. Get in right lane and cross El Camino. Continue on this street (which is now Menlo Avenue) until it deadends at University---turn right onto University, and then make a left onto Santa Cruz Avenue. Continue on Santa Cruz---Santa Cruz will veer to the left at a stop sign after a mile or so, and, at a signal light shortly thereafter, Santa Cruz again veers toward the left. The next signal light/intersection is Sand Hill Road---go through this intersection, but get in the right lane, so that you can follow the signs to Portola Valley. Stay in the right lane, and it becomes Alpine Road, going towards Portola Valley (see map). Continue on Alpine past Ladera, then take the first available left turn--there is a left-turn lane. If you go past the Alpine Inn (formerly Rossotti's, I believe), you've gone too far. Take the 4th right turn, which a narrow road marked with a yellow "15 mph" sign. The first right turn is to the Alpine Inn, the second is a narrow road, the third is a driveway leading to a private house---take the 4th right turn! Continue on this road---it will turn into an unpaved, gravel road, which has a sign on the left saying, "HORSE BARN STRAIGHT AHEAD"---this is your target, so continue until the road ends in a parking area in front of a horse barn, which will be slightly to your left as you drive up. Park away from the barn, on the south side of the parking area.

The target is the exterior of the wooden barn, plus the small fenced enclosures for horses on the east side (attached to the barn) and the area with a number of trees on the west side.

Walk all around the barn, and the area with the horse enclosures and the area with the trees. Note the design of the barn, its condition, and what it is made of. What are the dominant patterns? Then stand off to the side of the main entrance, near the office (with the tubs of plants). Make friends with any resident felines (unless you are allergic); visit with a nearby horse (if so inclined)--enjoy the open air and the views!

*wind, horses, birds... quiet.
smells of hay, dust, horses.*
