SUMMARY OF INFORMATION

During this session, I first could see a slope. It was cold outside and people were at the site. Then it looked like people were sliding down the slope.

I then felt that I was indoors and I could see an individual engaged in some type of activity. It looked as though he was doing an indoor sport. It seemed as though he had a big round ball or object and he was throwing it out away from himself.

I was then back outside and I could see a large light colored structure and people were standing outside the compounds of the structure. Some people here were holding a large sign or poster. People started to gather around to look at the sign or poster.
