

13 NOV 88

SECRET/NOFORN - HANDLE VIA SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER: 8833 (TC-21)	SESSION NUMBER: 2
DATE OF SESSION: 22 NOV 88	DATE OF REPORT: 22 NOV 88
START: 1400	END: 1425
METHODOLOGY: DOWSING	VIEWER IDENTIFIER: 095

SG1A

1. (S/NF/SK) MISSION: Determine the start point, route, and destination of the vessel
2. (S/NF/SK) VIEWER TASKING: 095 was furnished with a piece of clear acetate which the monitor marked only with tic marks matching the corners of the reference map (not available to the viewer). The viewer was informed that (unlike other dowsing sessions) the map was oriented North-South, and that it encompassed the Western hemisphere. 095 was instructed to mark the acetate at the 'start point', then to draw in the 'direction' and 'destination.'
3. (S/NF/SK) COMMENTS: (Refer to the attached map). 095 mentioned that the direction of movement (vessel's course) seemed a little different than that perceived in the initial session (See session #1, this date). Although the 'start point is not identical to that indicated by prior intelligence, if the overlay is slightly shifted to the left (west), then the direction of travel would parallel the west coast of the US to a 'destination' somewhere in northern California or Oregon.
4. (S/NF/SK) EVALUATION: []

SG1J

SECRET/NOFORN - SKEET CHANNELS ONLY
