PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	B904	SESSION NUMBER:	02
DATE OF SESSION:	06 FEB 89	DATE OF REPORT:	02 FEB 89
START:	1423	END:	1505
METHODOLOGY:	CRV	VIEWER ID:	003

1. (S/NF/SK) MISSION: To access and describe a target structure shown in overhead photo imagery.
2. (S/NF/SK) VIEWER TASKING: "Reaccess and describe the target site at encrypted coordinates: 428013/839461 in greater depth."
3. (S/NF/SK) COMMENTS:
 - a. Inclemencies: None declared.
 - b. 003 reaccessed the structure and began working on site related purpose and activities. In Stage 6, 003 discovered that the strong AI present was actually coming from a nearby building instead of the target. 003 then concentrated specifically on the target structure, and had no further trouble with AI.
 - c. Summary of Information enclosed.

Within the structure in question there is a sense of coercion, restraint, and confinement, along with a feeling of cells, prison, constraint, closure, "delving into", and investigating. There is a person here, who seems to be in a position of authority, who is matter-of-fact, no-nonsense, get-to-the-bottom-of things in his attitudes. He seems to wear a uniform, though not military. He is fairly thin, high cheekbones, a stoic face, and has a detached, clinical sort of an attitude. He is responsible, professional, and dedicated in a bureaucratic sense--to a sense of duty, not necessarily a cause. There are offices here, and people, as well as administrative matters and planning. This place just keeps on going, day in day out, business-as-usual. It is efficient and there is always a demand for services. The purpose of activity here seems to be finding things out from difficult or reluctant sources. Information extraction. People seem to be somewhat a raw material, and flow in at a steady rate. Don't get an indication that any particular event stands out over any other here. There was one slight impression of a female being brought in under restraint, but this incidence doesn't seem to be of significance or direct relevance.

Stronger emanations were determined from a structure located to the upper left from the actual structure in question. This structure seems to be of more importance, and even may be in some sense "in charge" of the structure of primary interest. Strong negative AIs were associated with this structure, with a sense of worry, dreading, anticipation, of effects or results that could not be further controlled. There is a person here who is one of several other people who are involved in something that will have effects they have not anticipated on people who were otherwise "innocent bystanders," effects that result from something these people created or for which they are responsible. Their non-resident superiors, however, are not especially concerned--they view it as "the price of doing business." Whatever is involved has been set in motion, hasn't happened yet (or, at least the results aren't in), but is unavoidable. There is the sense that these responsible people were inside the building, did their work inside it, but now are at least symbolically outside the building. The negative effects seem to be primarily intangible, originate inside the building, but the effects or impacts will be felt outside somehow, as a side-effect sort of thing.

At this juncture a metaphorical image occurred of a large, black, miasmic cloud streaming up from the desks and offices inside the building, spreading out through the side of the structure, and engulfing people outside of it. The cloud seems to be symbolic or allegorical to an extent. What this cloud represents was not further determined.

TASKER

1. Encrypted Coordinates: 428013/839461.
2. Tasking: Reaccess the target site and give more in-depth data.
3. Required EEI:
 - a. Describe the contents of the target structure.
 - b. Describe the key purpose.
 - c. Describe any key activities supporting this purpose.
 - d. Describe the key event associated with the target (i.e. the key event of particular interest to the tasker). Remain open to the possibilities of this key event being in past, present, or future time, and also to the possibility that the event did not/is not/will not occur.
