PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	8904	SESSION NUMBER:	01
DATE OF SESSION:	02 FEB 89	DATE OF REPORT:	02 FEB 89
START:	0926	END:	0950
METHODOLOGY:	CRV	VIEWER ID:	095

1. (S/NF/SK) MISSION: To access and describe a target structure shown in overhead photo imagery.
2. (S/NF/SK) VIEWER TASKING: "Access and describe the target site at encrypted coordinates: 428013/839461."
3. (S/NF/SK) COMMENTS:
 - a. Inclemencies: Chronic cough.
 - b. 095 developed site contact very quickly, and was immediately affected by the quality of air at the site. The air quality drove the strong AI of further lung irritation, and 095's coughing became almost uncontrollable. Several breaks were taken, but each return to the site caused further coughing. As a result, only the first EEI was fully addressed. 095 asked to continue tomorrow inside the structure, in hopes of letting the AI subside.
 - c. Summary of Information enclosed.
4. EVALUATION:

CRV

Site is a long, high structure with a flat roof. It has at least five stories. Between each story outside is a thin ledge. The building is light in color. It is in a city which is gray, dingy and cold (ADL: USSR, East Germany). Inside the structure has many hallways. A wide main hallway cuts across the center of the building width-wise. Several narrow hallways run lengthwise. There is also a feeling of rooms within rooms or hallways which don't lead out to the main hallway. One area inside is carpeted and has wood trim. ADL/Signals of government, legal and security guards.

WORKING PAPER

2 FEB 89

TASKER

1. Encrypted Coordinates: 428013/839461.
2. Tasking: Access and describe the target site at the above coordinates.
3. Required EEI:
 - a. Describe the target structure at the site providing sketches of all physical perceptions.
 - b. Describe the contents of the target structure.
 - c. Describe the key purpose.
 - d. Describe any key activities supporting this purpose.
 - e. Describe the key event associated with the target (i.e. the key event of particular interest to the tasker). Remain open to the possibilities of this key event being in past, present, or future time, and also to the possibility that the event did not/is not/will not occur.
 - f. Through your own search technique, provide a set of map coordinates for the target site. Also note method used, and any perceptions gained.
