4. (S/STD/NF) 095 reported that as of 07 1300L May 1990, heroin is inside large, rectangular crate(s)/container(s)/box(es), which are in a warehouse in Anchorage, Alaska. This warehouse is within a mile of the harbor. The warehouse is of block construction and is one of many in a crowded area of close rows of warehouses. The heroin is inside colorful, bright (red, white and blue) boxes and there are several outer layers of boxes/packaging. The name "McKenna" is somehow associated with either the warehouse or its location/address. The drugs will be transported by a black (hull) and white (trim) freighter to San Francisco, CA, where they will then be taken to Chinatown. The freighter will depart Alaska around 9 May 1990. The [redacted] is not involved in this operation. The [redacted] was somehow involved in the past but, not in the transport to San Francisco.
