*Post 7*

DATE: 11 APR 1990

REPLY TO  
ATTN OF: DT-S

SUBJECT: SUBJECT: SUN STREAK Report - 9012

TO: BRANCH CHIEF, DT-S

1. (S/STD/NF) On 03-04 April 1990, six remote viewers (# 011, 018, 025, 032, 079 and 095) conducted a total of six SOLID sessions in an effort to answer requirements against the probable narcotics smuggling vessel known as ~~██████████~~. The customer provided the following EEI:

SG1A

- a. Determine if the vessel is indeed carrying contraband narcotics.
- b. Determine current location of the vessel?
- c. Where is the narcotics contraband located on board the vessel?
- d. Where will the off-loading/transfer of the narcotics take place?

2. (S/STD/NF) 011 reported that the vessel is carrying contraband in the form of tightly packed bales or large dense blocks of hard resinous substance which is located below deck, in the vicinity of the engine/fuel compartment. The vessel is currently (03 1345L APR 90) located on the north side of Puerto Rico, in the vicinity of San Juan, at approximately 18 35' 00" N 066 05' 00" W. The offloading/transfer of the contraband will take place in southeastern Florida south of West Palm Beach and north of Miami (approx. 26 09' N 080 05' W).

3. (S/STD/NF) 018 reported that the vessel is carrying contraband which is located slightly forward and approximately half-way up the structure of the ship. The contraband is located under the flooring. This particular portion of the flooring also appears to also have a raised flooring over it, made of thin wooden strips (like the raised flooring in a butcher shop or restaurant kitchen). The current (03 0950L APR 90) location of the vessel is west of the northern tip of Spain at 44 N 10 W. The off-loading/transfer of the narcotics will take place on the southwest coast of France at 45 N 02 W.

4. (S/STD/NF) 025 reported that the vessel is carrying drugs in the form of mescaline/peyote wrapped in white paper boxes and tied with string. The contraband is located aboard the vessel near the food/kitchen area at the bottom of a steep stairwell. The current location of the drugs is near Ivory Coast around Tabowat (04 N 07 W). The contraband will be offloaded in South Carolina above Charleston at 33 N 79 W.

5. (S/STD/NF) 032 reported that the vessel is carrying contraband which is sealed/welded behind metal panels inside the hull on the starboard side, amidships. It will require cutting out to extract the contraband. One can pinpoint the spot by tapping on the walls. The current location (04 1230L APR 90) of the vessel 21 12'N 55 40' W. The primary route of the vessel to the drop off point is directly north to 48 N 61 W in the vicinity of Grand Bank, New Foundland. At this location the vessel will off load contraband to smaller craft which will unload to ground transportation which will carry the contraband along multiple routes into the US.

6. (S/STD/NF) 079 reported that the vessel is carrying contraband narcotics contained in green and white boxes/containers that are sitting on shelves on the vessel. The vessel is currently (03 APR 90) located at 29 W 31 N. The off-loading will take place at Philadelphia, PA. The vessel may have departed from Spain and the phonetic name "ZIEBART" is somehow associated with the vessel/operation.

7. (S/STD/NF) 095 reported that the vessel is carrying contraband in the form of heroin. This is located on board in a dark, confined area on the port side of the vessel, just below the waterline, 1/4th of the length of the vessel back from the bow. The vessel is currently (04 1005L APR 90) located at 25 48'N 33 45' W. The off-loading/transfer will take place on 11 0301-0400Z APR 90 at a location just south of Bermuda (32 N 65 18 W).

7. (S/STD/NF) Located at TAB A is a map showing all the points and approximate routes of the vessel(s) provided by all viewers. Located at TAB B are all the viewers' session summaries and EEI report sheets.
