SUMMARY OF INFORMATION

The personality will be present at one of the locations identified. The target site is densely foliated with large hill surrounding the location/structure. The structure is constructed of plaster and wood and has a large fence surrounding the entire "compound".

The interior of the structure is well furnished and has a large number of what appear to be expensive pieces of art and furniture. There are large spacious rooms and open exterior portions that are attached to the main structure. The floors are tiled and the doors are heavy wood.

The surrounding area has a great deal of high ground. There is only one road leading into the structure. The high ground that the structure sits on drops off sharply into a low area that appears to have a stream running through it. From this point the ground rises sharply back into large hills with heavy foliage. The area is remote -- there are no nearby structures (within approximately 500 meters to 1 kilometer). The distances to nearby structures could be much further -- the distances given are only the area that I looked at.

There were people in the structure -- several of which were armed. They were waiting for someone to arrive. There were people employed to serve the arrival with food and
