SUMMARY OF INFORMATION:

SG1A

SG1A 1. Describe the association between the vessel bearing the call sign [REDACTED] and the vessel bearing the call sign [REDACTED]

SG1A

The [REDACTED] will come alongside the [REDACTED] on 7 July to transfer a big load of drugs. This will be the largest transfer of drugs from the [REDACTED] and will take place very slowly, with a smaller boat going between the two, carrying small portions of the drugs, at irregular intervals, almost as though they were waiting to get each small portion safely hidden before risking being caught with another.

2. Do both call signs belong to the vessel identified as [REDACTED] in Project 9038?

SG1A

SG1A

No. The [REDACTED] is not a callsign. the callsign [REDACTED] belongs to the [REDACTED] which is not the same ship as the one using the callsign [REDACTED]

3. Describe the relevance, if any, of the activity projected to take place south of Jamaica, and that projected for south of the Dominican Republic.

I could find no hard and fast relationship between the two, other than the possibility that one of the ships involved in the exchange south of Jamaica may possibly also be involved in an exchange of drugs south of the Dominican Republic. The one ship involved in both operations appears to be the one using callsign [REDACTED]
