memorandum

DATE: 4 SEP 90

REPLY TO
ATTN OF: DT-S

SUBJECT: SUN STREAK Report - 90101 (U)

TO: ODCSINT, DAMI-PO

1. (S/STD/NF) On 23 August 1990, two remote viewing sessions were conducted in an effort to determine the presence of contraband in the form of illegal drugs aboard the vessel identified as the [REDACTED] SG1A

SG1A [REDACTED] If affirmative, viewers were to determine the location of the illegal drugs, the location of the applicable container if containers were used, and the intended recipient of the illegal drugs. As a last requirement, via the use of phonetics, the viewers were to determine the name of the company shipping the illegal drugs. This project was designated as a "time sensitive" project.

2. (S/STD/NF) Remote viewer 049 perceived the presence of contraband in the form of illegal drugs in two containers labelled "A" and "B" respectively. Container "A" contained contraband in the form of illegal gems, artifacts and possibly animal parts. The contraband in "A" was stored in a long, green metal box among stacks of gray cans containing viscous, foul-tasting liquid. Specifically, Container "A" was located about eight containers from the top, six containers from port, and fifteen containers forward of stern. Container "B" contained brightly colored, yellow and beige material or carpets. Contraband is located in a cut-out cavity of a cylindrically-shaped container. "B" container was located eight containers from the top, four containers from port, and 17 containers from stern.

3. (S/STD/NF) Remote Viewer 052 described the target vessel as a cargo ship having a dark grey hull and a blue superstructure. Illegal drugs in the form of cocaine, were located towards the rear of the vessel below the superstructure. The illegal drugs were located underneath boards surrounded by "sticky stuff," possibly glue.
