UNITED STATES GOVERNMENT

memorandum

DATE: 14 Jun 90

REPLY TO
ATTN OF: DT-S

SUBJECT: SUN STREAK Report - ⁹⁰³² [REDACTED] (U)

TO: ODCSINT-DAMI-PO

1. (S/STD/NF) On 23 April 1990, four remote viewers (#018, 025, 079 and 095) conducted one SOLO session each, for a total of four remote viewing sessions to determine:

a. If one or more airdrops would occur in conjunction with a projected narcotics smuggling operation. If so, when and where?

SG1A

b. If the fishing vessel, [REDACTED] was involved in the operation, and if so, how.

c. If an additional vessel, a 45-foot cigarette boat, was involved as well, and describe salient/identifying features.

SG1A

d. Determine if the island identified as [REDACTED] would be used as a cache site, and if so, what location on the island would be used.

e. Describe how narcotics would be packaged and stored.

2. (S/STD/NF) 018 reported that two shipments would occur, one the night of 23 May, followed by a second early morning 24 May 1990. The [REDACTED] would be involved in the operation, with the crew members pulling in the "packages", using a large net with red reflectors on its floats. The cigarette boat would not be used unless an emergency occurred. Source concluded that

SG1A

SG1A

SG1A [REDACTED] would not be used as a cache site, but that an alternate location would be approximately 2332N/8021W, where the contraband will remain for only "about an hour." (Source did search map of [REDACTED] and reported a tentative location at the northwest corner of the island). Narcotics will be "in large rectangular packages of plasticized cloth with some kind of 'painted' sealant used to close them."

~~SECRET/STD/NF~~

3. (S/STD/NF) 025 reported that "air drop activities" were "ongoing" (source meant perhaps that preparations were underway) at the time of the session, but would "take place" by May 25, at which time a parcel of cocaine was to "be delivered to the air drop off point" vic 25N/73W. The [redacted] and the cigarette boat were both directly involved, the latter transporting "a limited amount of cocaine to 23N/74W, from where it would continue "around several of the islands." The drugs would not be cached on [redacted]. Contraband was wrapped in some sort of green material.

SG1A

SG1A

4. (S/STD/NF) 079 reported, ^{the} airdrop would take place at two locations--vic 23N/74W and vic 22N/73W, during the "next two days," presumably 23-25 May 1990. Source reported that [redacted] would indeed be used to store the contraband on its "east coast near water." Contraband was "under white plastic."

SG1A

SG1A

5. (S/STD/NF) Viewer 095 reported airdrop would take place on 24 May 1990 between 0130 and 0430L vic 2340N7312W (NNE of [redacted]). [redacted] could be involved in the airdrop as the pickup vessel. Plastic buoys would be employed in some fashion. Cigarette boat was involved but in some other U/I capacity. Contraband would be stashed on [redacted] on the eastern tip of the island. Operation could "be halted/diverted at a moment's notice" in event of anything suspicious. A location in the vicinity of the Dominican Republic was designated as an alternate.

SG1A

SG1A

SG1A

6. (S/STD/NF) SUMMARY: Three sources agreed that [redacted] would be used to cache contraband (025, 079 and 095), two of them specifying locations on the eastern side of the island (079 and 095). One said the island would not be used (018). Two sources reported airdrop would occur early morning 24 May (018 and 095); one of these also specified late night 23 May for a separate drop (018). One source reported sometime during 23-25 May as the window (079), while a different source reported 25 May (025). Three sources reported drop points within the general area of [redacted] (025, 079 and 095), while one reported a drop point far to the west (018).
