

~~SECRET/STD/NF~~

UNITED STATES GOVERNMENT

memorandum

DATE: 2 July 1990
REPLY TO ATTN OF: DT-S
SUBJECT: SUN STREAK Report - 9040 (U)
TO: ODCSINT, DAMI-PO

SG1A

1. (S/STD/NF) On 28 June 1990, Remote Viewer 018 conducted a session to determine the current location of a target vessel identified as the [redacted]. The mission requirements included to determine the ultimate destination of the drugs as well as to determine the identity (ies) and descriptions of other vessels involved.

2. (S/STD/NF) Remote Viewer 018 determined the location of the target vessel as being at geographical coordinates, 10°30'N/76°15'W in an area located between Barranquilla and Cartagena, Colombia. Except for a small amount of drugs destined for personal use, no contraband in the form of illegal drugs were found to be aboard ship. In view of these findings, 018 terminated the session.

3. (S/STD/NF) Assumedly, this target was the subject of a collection effort pursued by the SUN STREAK team in Key West, Florida. Lack of time and personnel precluded any further effort against this target. However, 018 was advised that the vessel's route of travel should have been pursued to determine possibly where and when the target vessel might have on-loaded contraband in the form of illegal drugs.
