ATTN OF: DT-S

SUBJECT: SUN STREAK REPORT - 9023 (u)

TO: DAMI-PO

SG1A □

1. (S/STD/NF) On 9 April 1990, three remote viewers 003, 079 and 095 conducted one solo session each in an effort to answer requirements against the suspected narcotics smuggling vessel known as [REDACTED]. The 59-foot shrimper, with a white hull and a white superstructure departed from Baranquilla, Colombia on 22 April 1990. It is believed to be en-route for the southeastern part of the USA. The customer provided the following EEI:

- a. Determine the current location of the shrimper.
- b. Determine if it is carrying contraband in the form of drugs.
- c. If so, how is it wrapped and where is it stored?
- d. Where and when will the target vessel transfer/off-load the illegal drugs?
- e. Phonetically surface call signs associated with the target vessel.

2. (S/STD/NF) 003 reported that the vessel is presently in an area west northwest of the Cayman Islands at [REDACTED] N/84W. Hard, white granular material in heavy plastic sheeting is inside metal boxes. These are stored inside an airtight, smelly compartment which may be covered with dead, slimy, sea animals. The contraband is bound for the southeast coast of Florida at 26 40'N/80 10'W. The vessel may off-load drugs within eight or ten hours of 271030LAPR90.

SG1A

3. (S/STD/NF) 079 reported that the [REDACTED] " can be located at geographical coordinates [REDACTED] N/85W. It is currently carrying a large amount of contraband which is located at the mid portion of the ship. The vessel will sail through the Gulf of Mexico and wait for instructions on where to off-load. Off-loading may occur in the southwestern portion of the US. The call sign "Frampton/Rompton/Frompton" phonetically surfaced.

4. (S/STD/NF) 095 reported that the vessel is south of Haiti at ~~14°N/74°30'W~~ and is heading east northeast at 271250LAPR90. It is carrying cocaine which is in small, fist sized, clear plastic bags and wrapped in insulating materials. These are then stuffed in small nooks and crannies around engine/machinery across the stern. The drugs are located mainly starboard and center below the water line at D-F on the grid. The contraband will be transferred to a similar sized vessel on 30 Apr 90 after 2200 hours at a location east of Turks and Caicos Islands at 22 12'N/69 12'W. The second vessel will continue toward the US. A call sign sounds like "Macheeka/Micheeka/Cheeca/Chko".

5. (S/STD/NF) At TAB A is a map showing current locations provided by the viewers.
