REPLY: By common agreement, a diagrammatic representation  
of the island was used to submit four locations.  
The containers were described as smooth, metal  
containers 3-5 ft long, 2-3 ft wide equipped with  
a solid protective inner lining.

SG1A

ACTION: JTF-4 analysts coordinated with the ~~SECRET~~  
police who recovered twelve metal boxes bearing an  
estimated 300 "kilos" of cocaine. The metal  
containers were found to be water-proofed, branded  
and marked; cocaine was individually packaged,  
wrapped, and placed in the metal containers.

EVAL: Strong correlation to ground truth on the location  
of the drugs, the metal containers and the island  
itself.
