memorandum

DATE: 9 MAY 1990

REPLY TO
ATTN OF: DT-S

SUBJECT: SUN STREAK REPORT - 9009-IV

TO: BRANCH CHIEF, DT-S

1. (S/STD/NF) On 9 May 1990, three remote viewers 079, 018, and 095 conducted one solo session each in an effort to answer requirements against [redacted]. This is related to project 9009-III. The customer provided the following EEI:

a. Determine if [redacted] is involved in the drug case associated with project 9009-III.

b. Determine if [redacted] is involved in narcotics shipments.

c. Determine if the [redacted] is a [redacted] government controlled station.

2. (S/STD/NF) 079 reported that [redacted] was involved during the third and fourth week of April in the drug case associated with this project. This station has been involved in narcotics shipments in the past. This station is not government controlled and is used by radicals and subversives.

3. (S/STD/NF) 018 reported that the entire drug shipment from 9009-III came through [redacted]. This station is in a mountainous small town, where growth and processing of the shipment was handled/headed by a very thin, elderly man. The shipment went through the station on its way to a good looking, well-dressed woman in a large port city to the southwest of there (possibly [redacted]). The station is involved with narcotics shipments. The drug handling activities of the station are not controlled by [redacted] directly. The government knows of the drug developments at all stages (growth, processing, transport shipping, etc..) and gets money from it at each stage as well as placing loose controls on each stage.

4. (S/STD/NF) 095 reported that the [redacted] is not involved in the drug case of 9009-III, nor is it involved in any narcotics shipments. The station is not a [redacted] controlled station. It is foreign government controlled/sponsored. The activities of the station are against [redacted]. The station, itself, involves a small number of men and an intricate, movable radio. Additionally, viewer reported that the station is not stationary and that movement/relocation is often on foot.
