E. SESSION SUMMARY:

Site is outdoors with a tunnel or a natural stone wall. Men are working inside the tunnel or the wall. They are drilling. The men are also interested in packaging large objects. There are small square light colored structures associated with the site. They were built to accommodate the tunnel or the wall. People work inside the buildings but the main focus is what the men are doing inside the tunnel or structure. The small square light colored structures are lightly built. They can be removed or taken down or demolished quickly.

The work being done is military related but all the people working here may not be in the military. There is a man who oversees the work and he wears a green military uniform and he is concerned about the work being done here but he may not necessarily be of that country's origin.

It can get quite noisy here and the area is remote.
