SUMMARY

During the period of June 1992/July 1992, there is a high probability that the personality may travel to "Soho" an area known for its bohemian atmosphere and located in London, England. The target personality is entertaining the thought of impersonating a female tourist traveling on a fake passport to gain access to England. The purpose of the travel is to commit a terrorist act against the (Western) establishment or a representative of that establishment.

The word "Oahuah" (and variations thereto previously surfaced) appeared to be an attempt to describe a location in Soho or an associate, a second terrorist who would be met in Soho. (Efforts will be made to refine this data in a future session).

(The word "linoleum" also surfaced but its relevance to the target personality needs to be determined at a later date.)
