

SESSION INFORMATION

- A. TARGET DATA:  
Task/Target No. : 92-50-0 - d  
Session No. : 05
- B. PERSONNEL DATA:  
Source No. : 049  
Monitor's No. : N/A  
Beacon/Sender No. : N/A
- C. SESSION DATA:  
Date Task Received : 01 MAY 92  
Session Date : "  
Start Time : 1030  
Stop Time : 1119  
Method Used : Solo CRV  
Aids/Distractions (PIs) : Upset stomach; errands in D.C.  
Pre-session Hunches (AVs) : Generic freighter  
Date Summary Returned : 01 MAY 92
- D. EVALUATION DATA:  
Viewer's Estimate : Mid-High  
Evaluator's Estimate :
- E. SESSION SUMMARY:

The vessel contains a hollow compartment which is an addition to the normal configuration of the ship (see diagrams). This compartment is, or will be, sealed closed and hidden by loosely stacked large woven sacks. These sacks have yellow characters printed on them and contain a loose, granular material. They are piled up within a fenced off area of the ship just forward of an area that is oily, filthy, dark, loud and has a mechanical feel to it. The fence/barrier resembles a wooden gate or corral. There are brown paper bags with yellow printing and red bans somehow associated with this area.

The compartment is surrounded by a substance that feels soft but is thick; it fills up the space like foam but is more dense. There are small, wrapped objects densely packed within the compartment; they are really rammed in there. These are, in turn, wrapped into groups or bundles. There are several layers of protective covering. There is the impression that some of these layers are used in an attempt to degrade or interfere with any probing/sensing procedures.

There is the impression that the "work" related to the above is finishing up very soon. The vessel needs some other legitimate work performed but this may not be accomplished prior to the onset of the planned activity.

This document is made available through the declassification efforts  
and research of John Greenewald, Jr., creator of:

# The Black Vault

The Black Vault is the largest online Freedom of Information Act (FOIA)  
document clearinghouse in the world. The research efforts here are  
responsible for the declassification of hundreds of thousands of pages  
released by the U.S. Government & Military.

(2)

There is a strange plate-like extension which projects out from the super structure. This extension appears to separate the rear super structure into upper and lower sections. The bow area has a blemished appearance. It has either chipped paint, dents or some other damage. There is something unusual about the bow; it looks wrinkled. This vessel appears "different" from overhead; I can't explain it but it looks like there is more there than is really there. The phonetics "NA" and "WA" were perceived.

AUC

A/S

Towards rear of vessel

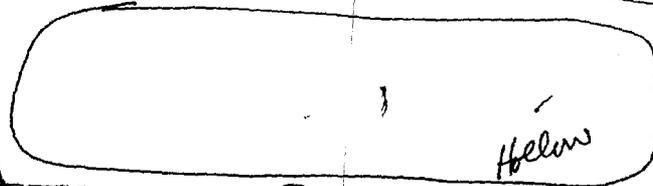

Seams are sealed

Towards rear

oily, filthy, dark, dirty, lined, hard to breathe here

A/S Like a holding bin

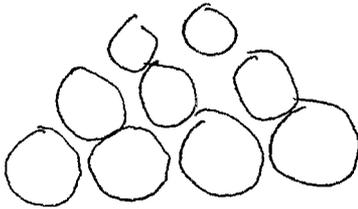

thick sides faced with platform otherwise

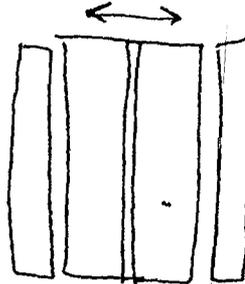

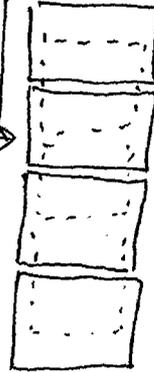

(A)

Large sacks of loose material; grainy, granular, etc. Sacks are stacked loose w/ this barrier. Fence-like barrier holds them in.

Rail-like barrier

row of barrels; lying on sides, perpendicular to axis of vessel; dark color w/ black ends. Stacks 3 high

wooden object; rocks back of gate

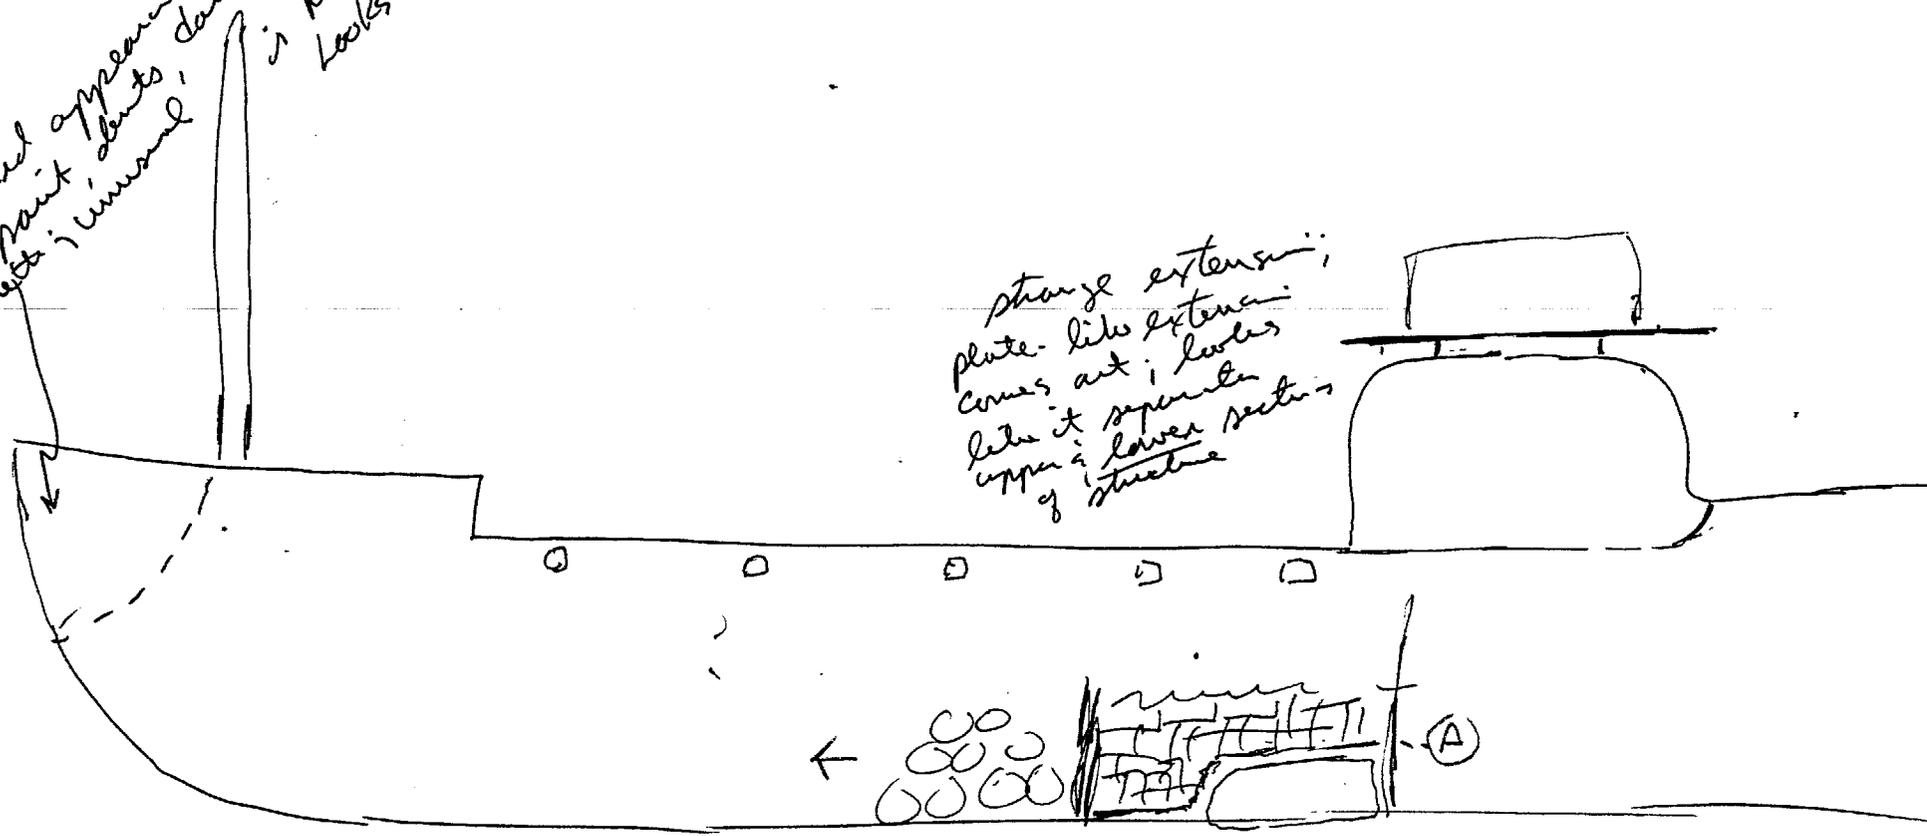

front

Barrier resembles wooden gate; corral gate

A/S Corral gate

blemished appearance - here;  
chipped paint, dents, damage  
or bumps; unusual  
is here or low  
looks wrinkled

strange extension;  
plate-like extension;  
comes out; looks  
like it separates  
upper & lower sections  
of structure

NA  
WA  
NAWA ...

- appears different from overhead;  
can't explain it. looks like  
there is more there than there  
really is.
