

SECRET/NOFORN

PROJECT SUN STREAK

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	0033 (Tng)	SESSION NUMBER:	1
DATE OF SESSION:	28 MAR 90	DATE OF REPORT:	28 MAR 90
START:	0940	END:	1005
METHODOLOGY:	BOX <i>SOLO</i>	VIEWER IDENTIFIER:	052

1. (S/SK) MISSION: To describe the target site (The St. Louis Arch) in Stage 3 terminology, working solo.
2. (S/SK) VIEWER TASKING: Encrypted coordinates only.
3. (S/SK) COMMENTS: No Physical Inclemencies. This session taught 052 several things, the most important of which was how to deal with "secondary AOL" (where a Viewer does not get AOL from the site, but says, "It's usually AOL when I get this, so it must be AOL this time, too."). As opposed to the regular method of post-session discussion, the problem was dealt with immediately when it happened so 052 could experience the process of "working it out" through honest objectification. Site was resolved excellently (see sketch, page 10).
4. (S/SK) EVALUATION: *3*
5. (S/SK) SEARCH EVALUATION: N/A

MONITOR: 018

Session end 1005

Mississippi River Reflections
Gateway to the West

St. Louis was only a small Trading Post in 1764 but has always been important throughout history. St. Louis was the site where many trappers, pioneers, goldseekers and settlers assembled and acquired what would be needed for their trek to the West. The St. Louis Arch was built to commemorate the Gateway to the West and the pioneering spirit. The nation's tallest monument at 630 feet on the Mississippi at St. Louis, Missouri.
