PROJECT SUN STREAK

M, 13 Jul 90

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

PROJECT NUMBER:	0059 (Tng)	SESSION NUMBER:	3
DATE OF SESSION:	22 MAY 90 23 MAY 90	DATE OF REPORT:	12 JUL 90
START:	1510	END:	1530
METHODOLOGY:	0910 CRV	VIEWER IDENTIFIER:	0959 052

1. (S/SK) MISSION: To describe the target site (Solar One solar furnact tower) in Stage 4 terminology.
2. (S/SK) VIEWER TASKING: Encrypted coordinates only.
3. (S/SK) COMMENTS: No Physical Inclemencies reported. An interuption in the session caused work to be postponed until the next day. 052 was assured before working that the site was one which was in no way familiar, and which could therefore never be identified, no matter how much detail was gained. The fact was stressed that identification of the site was totally unimportant to the success of the session, and a description was all that was necessary. Thereby averting a continuance of the previous frustration, 052 continued working the site, and accomplished exemplary results.
4. (S/SK) EVALUATION: **3**
5. (S/SK) SEARCH EVALUATION: N/A.

WORKING PAPER

Target #: 0059
Date: 22/23 May 90
Time: 1510-1530
0910-0959
Viewer: 052
Session: 03

SUMMARY OF INFORMATION:

The site is a big, tall, narrow, vertical, dark structure beside a generally flat, but not perfectly flat structure. It is not perfectly flat because it has little waves which consist of angles, all lined up in a row. There is something glowing or burning hot at the site and it seems to be in the middle of the structure.

Summary

big narrow

The site is a tall, vertical dark structure beside a generally flat, but not perfectly flat structure. It is not perfectly flat because it has little waves which consist of angles, all lined up in a row. There is something glowing or burning^{hot} at the site and it seems to be in the middle of the structure.
