SUMMARY OF INFORMATION

A spacecraft vehicle is utilized to investigate a red planet. Planet earth can be seen from this vantage point. Inside the spacecraft, there are TV monitors with wavy lights that go across the screen. Testing. The only ~~thing I saw was the U.S.~~ An area separates from the spacecraft and orange-yellow light is present. ~~Space shuttle rocket, Discovery.~~ At one point, the circular object is on a stand on the ground and then it moved. A red object with black ends turns like a barbell in motion. The object concerns radio communication relay systems and is not quite a satellite network in nature, but it has these capabilities.
