SUMMARY OF INFORMATION

The land is not completely flat with short grass, trees and dirt roads. Water is nearby. There is a giant moon at night time. I visualized the letter B. At the site, a red cylindrical shaped canister is present. Also, there is a big object which is wheel shaped (octagon), and hoisted up by a triangular foundation. This particular object is associated with water (splashing), can spin in slow motion, and has rectangular portions "carriages" (see pages 4 and 5). This is a network for arrival purposes and conditioning. Other objects include, large black pots, bushels of sticks, and a barn which has been painted red with white trim (see sketches on pages 1, 2, and 3).

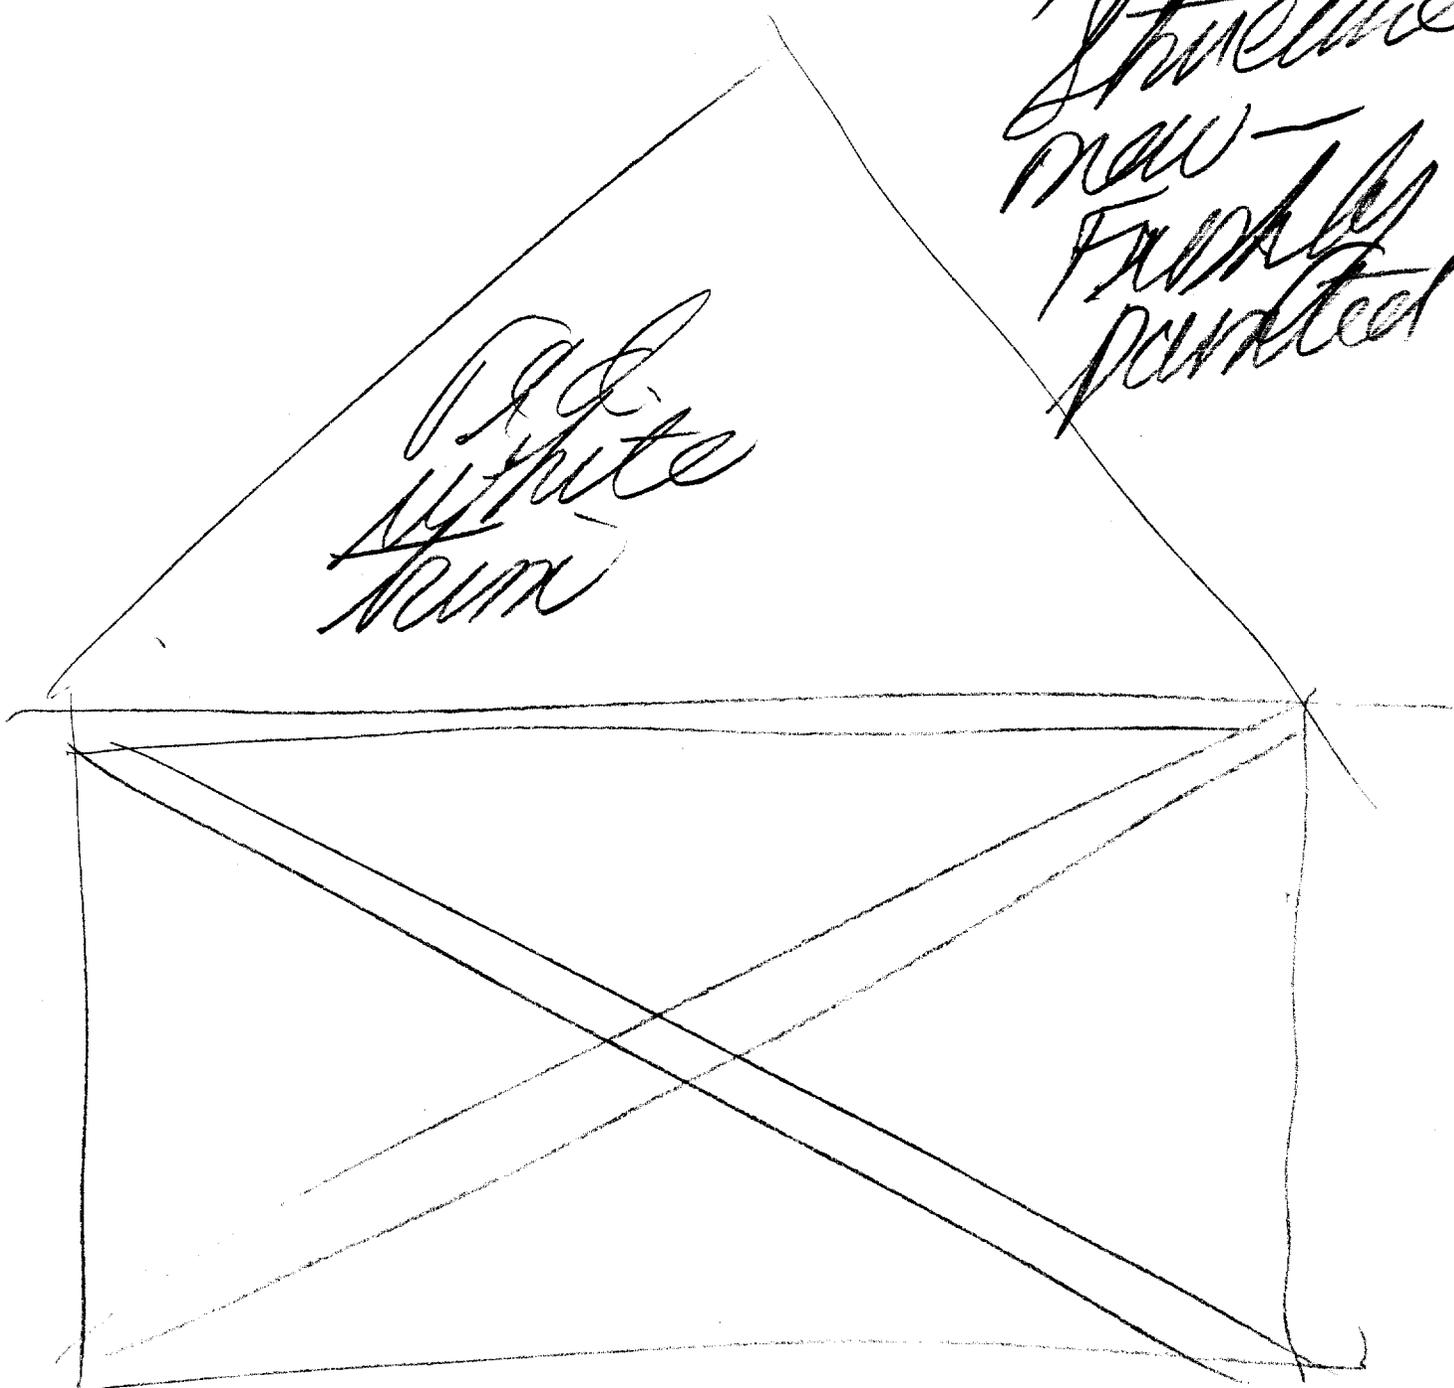

This place is naturally historical and traditional with primitive means. The environment is a giant play ground or park area. Predominantly women are present and some children. These women are wearing long dresses/skirts/frocks (page 6). Some people are working, pushing something. One main great big ball of light is present and lanterns. This site reminds me of the mennonites.
