WORKING PAPER

Project: 5289
Date: 900129
Time: 1130-1249
Viewer: 01B
Session: 02

SUMMARY OF INFORMATION:

1. (S/NF/SK) Describe the target object: The object further resolved into a large, rounded, conically pointed object which is in some way mounted, but the whole mounted assembly then stands alone. It is still seen as black or very dark in color.
2. (S/NF/SK) Describe the activity at the site: The only activity found appeared to be a very fast moving "something" hitting the object, ricocheting around its concave sides, and going on in a new path (see sketch, fig. 1). The "something" appeared to glow, as though it were on fire, or were a beam of light, itself.
