PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

-----  
PROJECT NUMBER: 0016-A                      SESSION NUMBER: 1  
DATE OF SESSION: 6 JUN 88                      DATE OF REPORT: 6 JUN 88  
START: 0833                                      END: 0930  
METHODOLOGY: CRV                                      VIEWER IDENTIFIER: 025  
-----

1. (S/NF/SK) MISSION: Stage 2 training with an additional learning objective of experiencing the perceptions associated with a structure in motion. Site was Cape Kennedy (space shuttle shot at approximately 1000 hrs, 12 April 85).

2. (S/NF/SK) VIEWER TASKING: Coordinates 2825/8035.

3. (S/NF/SK) COMMENTS: 025 has finally established the proper pace for a session, thereby permitting data to flow much more smoothly. Attention to structure was generally excellent--no mistakes! However, a slight tendency to talk about the data (perceptions) persists, a practice which inevitably leads to AOL "peacocking". This was pointed out to 025 and the monitor will continue to take corrective action in this regard, when necessary. Also, 025 has found it necessary to impose (force train) an angle on the ideogram representing "structure"; the perception of structure is present, but is not reflected strongly enough (so as to prevent some confusion) in the actual ideogram.

All-in-all, psychic performance was very good, with a greater quantity of Stage 2 percepts present and all necessary Stage 1 gestalts, with the exception of described motion (vs movement--i.e., water waves, etc.) detected and properly decoded.

4. (S/NF/SK) EVALUATION: [ ] 3
