SUMMARY OF INFORMATION

During this session, I first could that the overall area was round. It was warm and breezy and the event took place outside.

I had the impression of flight or objects moving or swaying back and forth. There was motion to the activity.

I still could see the circular objects which was reported in the first session. However, these objects were more elaborate and were closer together during this session. It looked as though they could have been lined up.

I had the impression of a statue sitting outside. It looked as though a man was sitting on a horse.

I then had the impression that I was looking at the back of another statue. This statue was of a man who had bare shoulders and his hair was blonde and it was long and curly.

I then could see a man sitting behind a desk. He wore a black suit. His hands were holding something round and it looked as though he was demonstrating something.

Overall, the activity was a happy occasion.
