SESSION SUMMARY

SITE: Radio Tower

..... the IAB sequence felt good from the beginning. This was one of the few times that the B component came through so quickly and strong. I cannot analyze why I felt that the interface was land and structure, I just somehow knew.

Several obvious ^{problems} I had with this site were:

Ⓐ being out of structure by not listing ~~dimensionals~~ ^{frame} ~~after basic~~ stage II data before dimensionals.

Ⓑ not recognizing the A.I. when it occurred, which ^{threw me} placed it out of structure when listing stage II's

Ⓒ not probing the signal line for all stage II's to include sound, smell, etc.
