Monitor 099

1. (S/NF/SK) Tasking: (See attached data).
2. (S/NF/SK) Session: Monitor biased by CRV-01/02 results and ops officer positive feedback provided RV-003. This site was worked as a Class B target. Monitor experienced some difficulty getting source to the target and keeping source there-heavy AOL drive encountered and raw data finally dried up. Source and monitor agreed to continue working this target at a later date.
3. (S/NF/SK) Summary: First part of site is an isolated warehouse and/or assembly building. Site involves heavy, black, slick and cold equipment. The equipment is moved and stored in large wooden crates. The equipment is delivered (possibly after assembly) to men (AOL-"Chinese") in brown uniforms with red and gold markings. (These men are very harsh and stern). Equipment is then moved to a "deployment" site at or near a large shipyard. (NOTE: After this point, monitor could not extract source from AOL drive to elicit further raw data.
4. (S/NF/SK) Feedback: Source was informed that monitor knew enough about the site to "get source to the place" but that source must take over from there. No post-session feedback provided source.
