SOURCE 003 RESPONSE

Site is a cantonment located in a wide, low-relief area near a body of water which people at site must cross to arrive at objective. People at the site comprise a group of "rough" military or paramilitary type individuals who are preparing to perform some sort of action, which involves the concept of ex/infiltration. Their intentions involve "critical nodes," and require planning and much outside information and details for success. Crates, cylinders, and boxes containing munitions, lots of explosives, food, and commo gear are stacked in the area.
