1. (S/NF/SK) Tasking: See original tasking data, attached. Monitor biased by previous source reporting as well as ops officer's comments (ref. CRV-03 Tasking notes).

2. (S/NF/SK) Session: Several S6 tools were utilized in assessing the site, however, source continued to perceive the scenario described below. Monitor has enough experience with RV-021 to say, with a good degree of confidence, that source's data is probably not AOL. This is not to say that data is guaranteed relevant to the assigned target.

3. (S/NF/SK) Summary: Site involves a large, older building in a populated area. Access to this building is limited. [Story line: An older man, who is later executed, is forcibly removed from a vehicle outside a building. This man was a key figure in important negotiations and possesses a great deal of information, the content of which could be extremely damaging, could reveal true motives and proposed actions. A cover-up is engineered to explain the person's disappearance. Source perceives that a press conference takes place in the building, described above, during which time information relating to this incident is released.] (Whew!)

(mess?)

4. (S/NF/SK) Feedback: Source was informed that monitor knew nothing about this site.
