1. (S/NF/SK) Tasking: See original tasking data sheet in ops officer files. No additional instructions received.

2. (S/NF/SK) Session: (Concurrent Stage V training was conducted during this session). Monitor is convinced that source acquired the site and probably accurately described/sketched several of its EEI-related aspects. Monitor intends upon pursuing the idea of "prior, shadowy event", and other more concise details during subsequent sessions.

3. (S/NF/SK) Summary: Earth-covered, concrete structure (AOL-"bunker"; see source sketch). Inside, just below ground level, is an object that appears in ~~all~~ many respects (external and internal) to be identical to a missile reentry vehicle (RV). Some time in the (probable) future, the object is perceived to be outside the structure. At that time (during hours of darkness) it is associated with an event, characterized by a red/orange/yellow glowing mass which moves in a curving arc. There is another type of connected event which occurs (moments) before, but its details were obscure.

4. (S/NF/SK) Feedback: Source was very concerned about AOL, particularly "bunker" and "missile". Monitor informed source that he may actually be working on something like that. Source was also informed that another source who had worked this problem earlier had described a similar setting ("bunker") in connection with this site.
