```

1. (S/NF/SK) Tasking: No change in tasking. (See original tasking data sheet, attached). Monitor is aware that the target is some type of "vehicle--not a jeep" (per ops officer).

2. (S/NF/SK) Session: PI of "tired". Source had one "joy ride" before beginning to describe a "structure" near water. Since the structure looked to be some type of vessel (i.e., "vehicle"), monitor maintained source's attention upon it. However, monitor (and source) felt that the possibility of AOL drive was high; monitor did not wish to proceed further until after ops officer feedback.

3. (S/NF/SK) Summary: Source described a structure, near water, which is long, narrow, flat-bottomed. Interior illumination casts a greenish glow. AOL's of "submarine" and "marine research vessel".

4. (S/NF/SK) Feedback: Monitor informed source that, based upon his knowledge of the site, there was a possibility that she was onto the target, but that ops officer guidance would be required lest both monitor and source become engaged in a wild goose chase.
