

Lyn  
SRV  
Ft Meade  
12 May 87

SUBJECT: SRV tasking for week of 11-15 May 87

1. Only one preliminary session was performed on this week's SRV tasking, due to the fact that I am on leave from Wednesday through Friday. Therefore, this session will be very shallow, at best.

2. RESULTS: Site area has a waterway which gives the impression of being very polluted. There was an area connected to the waterway which caused some confusion in that it seems to be paved, with the pavement bordered by wooden logs, or a railroad-tie type of lumber, seemingly painted green. The confusion comes in the fact that the whole area seems to be in motion, as though it were floating on a wavy sea.

3. DIAGRAM: The diagram below is very sketchy and incomplete, but, as indicated in para. 1, above, is from a very preliminary session, only.
