MEMORANDUM FOR THE DEPUTY SECRETARY OF DEFENSE

SUBJECT: Request for renewal of human use approval - ACTION MEMORANDUM (U)

(S/NF/SS-2) This request is in response to your desire for annual review of the DIA psychoenergetics activity conducted under SUN STREAK, a DoD-approved special access program (enclosure).

(S/NF/SS-2) GDIP billets for SUN STREAK were authorized in FY 85 for DIA. Currently, there are ten (10) personnel assigned to this project. Effort during FY 85 and FY 86 was primarily devoted to personnel selection and training, although a few operational issues were also investigated.

(S/NF/SS-2) During FY 87 and FY 88, Project SUN STREAK personnel pursued the practical applications of applied psychoenergetics against selected operational tasks and improved skills through proven training techniques.

(S/NF/SS-2) During FY 89, proven training techniques were continued and a wider range of operational tasks were pursued.

(S/NF/SS-2) For FY 90, it is anticipated that seven (7) SUN STREAK personnel will receive advanced training for application to complex operational tasks. An increase in operational project activity is also expected as experienced staff members become more proficient and as the project achieves limited operational status.

(S/NF/SS-2) A panel of senior executives from DIA, CIA, AIA, AF/IN, DNI and C³I oversee and advise the SUN STREAK project in matters relating to operational activities. Project activity is monitored and reviewed by an executive-level panel with membership from DIA, CIA, ASD/C³I, and the IC Staff.
