The target is near a rounded, grayish, light blue/white tank. It is metallic, associated with water, and surrounded in nature. The target is located in a park like land area consisting of greenery and birds. This tall rounded structure contains liquid and is solitary with nothing around it. The metal body is similar to the swelling belly of a plane and stands like a mound in the earth. The target is larger than people, is for people, and helps people. This target is a form of reserve or reservoir and is conceptually similar to a water tank. The idea of the preservation of birds in their natural environment keeps coming to mind.

CPYRGHT

Grand event of a grand city: Equestrian aristocrats share the spotlight with prize farm animals in the 77th annual American Royal Livestock, Horse Show, and Rodeo. The cowboy contests were a first at last year's Royal, which drew a record quarter of a million spectators.

With a last-minute adjustment (left), a finalist prepares to bid for the championship in the equitation division, a test of classic riding form. High-stepping harness horses

(below) circle in the new Kemper Arena, which will be the scene of the Republican National Convention in August 1976.

Breeders from across the United States and Canada bring their prize livestock to the Royal. The exhibitor of the grand champion Polled Hereford accepts congratulations (lower left). Yvonne Sharon Roberts, Miss California Charolais (lower right), was one of several beauty queens representing various stockbreeder associations.
